

“WE MUST WORK PASSIONATELY & indefatigably to bridge the gulf between our scientific progress and our moral progress. One of the great problems of Mankind is that we suffer from a poverty of the Spirit which stands in glaring contrast to our scientific & technological abundance. **The richer we have become materially, the poorer we have become morally & Spiritually. Every man lives in two realms, the internal and the external.** The **Internal** is that realm of spiritual ends expressed in art, literature, morals, and religion. The **External** is that complex of devices, techniques, mechanisms and instrumentalities by means of which we live.

Our problem today is that **we have allowed the internal to become lost in the external.**

We have allowed **the means** by which we live
to outdistance the ends for which we live.

The stability of the great world house which is ours will involve a revolution of values...
**We must rapidly shift from a “Thing”-oriented society
to a “Person”-oriented society...**

A civilization can flounder as readily in the face of moral & Spiritual bankruptcy
as it can through financial bankruptcy.”

Martin Luther King 1967

**“Unless Mankind can liberate himself from the degrading Tyranny
of his enslavement to the Religion of Economics,
he is certainly doomed to Self-destruction.”** Ashley Montagu 1950

**“INASMUCH AS YE HAVE DONE SO
TO THE LEAST OF THESE, MY BRETHREN
YE HAVE DONE SO UNTO ME.”**

St. Matthew 25:40

Our entire society has been hijacked by those who knowingly have enslaved us to the Religion of Economics **by which we are fatally divided into classes, countries, religions, and races** all of which are manipulated and controlled by those who profit immensely by means of those divisions under whose command **we slander, cripple, starve, and murder one another in greater numbers than ever before.** The powerful **falsehoods** which are employed **to exacerbate these divisions** are now **marching** the Human Race over a bottomless cliff of **ecological destruction, climactic alteration,** the **economics of permanent war,** and the **pervasive breakdown of the social body of Mankind.**

If we are to survive it is absolutely imperative for us to re-Inspire the body politic of Humanity, **to bring back the humanities,** the **Arts, moral** and **economic and historical philosophy, the search for Truth** and the **Meaning of our existence on this planet** back into our social consciousness at EVERY level.

Both extremes of the public realm, the Education system, in toto, and the realm of Governance, in toto, **are completely corrupted by this religion of separateness, competitiveness, FEAR, economic exploitation, and political & military domination.** This is in absolute contrast with the dreams of the Founding Fathers of our incipient democratic society two Centuries past. **We have only ONE Planet to live upon,** & to mutually share its nurture, & it is shrinking under our violence.

If the ultimate Goals toward which we educate, train, bait, reward, and marshal our children and ourselves **are themselves ultimately and fatally corrupt,** then the **great technological means by which we pursue these ends,** shall only hasten and secure our destruction.

The **Handwriting is on the Wall,** as for myself, I shall continue by every possible means **to Awaken my companions** on this Journey **to these Truths.**

Whether I battle over some trivia here and there, or sing you a song, narrate a story or a poem, **or merely ride my bike over a mountain,** **this** is what I am up to.

Always has been – always will be.

I may do so very poorly and inadequately; others may judge.

But, this is ever my intent.

GANDHIJI

**“EVEN IF THE VERY BEST THAT I CAN DO BE WOEFULLY INADEQUATE
STILL, I MUST DO WHAT I CAN.”**

That is all.
